

## Ideation Phase

### Define the Problem Statements

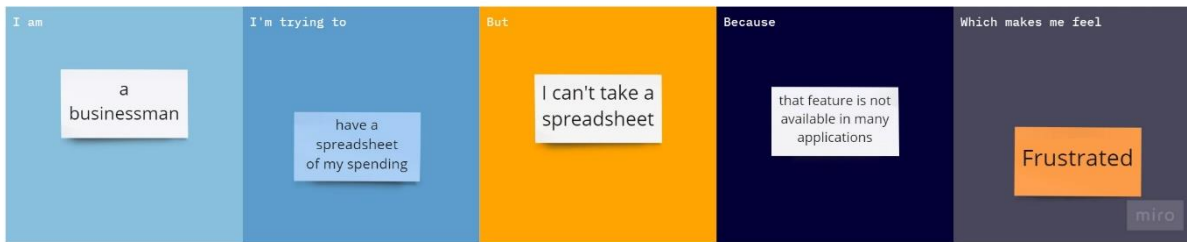

Date	26 September 2022
Team ID	PNT2022TMID07973
Project Name	Project – PERSONAL EXPENSE TRACKER APPLICATION.

#### Customer Problem Statement Template:

Tracking the spending is always being aware of one's personal finances. Tracking what we spend can help us stick to our budget, not just in a general way, but in each category. Manually tracking all cash that is spent can be time consuming, hence doing that automatically can be quick and simple.

If someone wish to track spending by entering data onto a computer [spreadsheet](#), hence these options should also be available.

#### Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A businessman	get a spreadsheet of my spending	I can't take a spreadsheet	that feature is not available in many applications	frustrated
PS-2	A finance manager	Feed the income and spending automatically	I fed the expenses manually	There is no feature of automatic feed of expenses	annoyed
