Project Design Phase-I
Proposed Solution

Date	24 September 2022
Team ID	PNT2022TMID07973
Project Name	Project - PERSONAL EXPENSE TRACKER APPLICATION.

Proposed Solution :

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Personal expense tracker application
2.	Idea / Solution description	To build a Personal expense tracking application using Python, Flask, and Docker.
3.	Novelty / Uniqueness	Initially, we get short-term and long-term goals from the user, and based on their expense and savings we will notify their goals.
4.	Social Impact / Customer Satisfaction	Customers can save money and set financial goals by analysing their expenses using this expense tracking application.
5.	Business Model (Revenue Model)	By using: Can track their expense and get rid from financial problems. Without using: They may face financial issues.
6.	Scalability of the Solution	Personally used to save their money and set financial goals.
